Experience

Techolution

July 2024 – Present

Software Engineer – Python, Flask, FastAPI, MongoDB, Microservices, GCP, AI Workflows

Hyderabad, India

- Led a small team to architect, build, and deploy **StackMod**, a scalable AI-powered code modernization platform, reducing manual refactoring effort by **40%** and onboarding time by **30%**.
- Optimized AI workflows with real-time streaming, intelligent clarification prompts, and context-aware threading – improving AI task accuracy by **35%** and preventing context-limit errors.
- Independently resolved a MongoDB performance bottleneck, reducing CRUD API latency by **60%** and **2x** system throughput under peak load.
- Collaborated on **3+ enterprise projects** (84 Lumber, Sylvan, Wesco), achieving **100% on-time delivery** and maintaining **<1%** post-release defects.
- Shipped robust, scalable code with **2100+ commits**, **190+ PRs reviewed**, **30K+ lines added**, and **14K+ lines deleted**.

Techolution

Nov 2023 – June 2024

Software Engineer Intern – Python, Flask, MongoDB, AI Integration

Hyderabad, India

AIoT Technologies

Apr 2023 – Sep 2023

AI Intern – Python, CNN, Tensorflow, Machine Learning

Remote

Projects

Personal Portfolio Website | Python, JavaScript, FastAPI, Asyn Programming, SQL, Bootstrap

[Live Link](#)

- Designed and developed a fully responsive personal portfolio at **harshitrathore.me**, showcasing projects across **AI/ML, backend, frontend, and mobile app backends**.
- Enabled direct interaction with live ML models via intuitive interfaces; sample data included for quick testing of deployed AI features.
- Integrated real-time API demos, project descriptions, and GitHub links to provide recruiters and peers with hands-on access.
- Project is **production-ready**, actively maintained, and regularly enhanced with new features and technical improvements.

Technical Skills

Programming Languages: Python, Java, JavaScript, SQL

Back-end Tech: Flask, FastAPI, SSE, Sockets.io, REST APIs

Databases: MySQL, MongoDB, Redis, NoSQL

Tools: Git, GitHub, Linux

Cloud: Google Cloud Platform (GCP), Docker, Kubernetes, Cloud Build, Virtual Machines

Core Subjects: Data Structure and Algorithm, OOPs, DBMS, Computer Networks

Miscellaneous: Microservices, Multithreading, Async Programming, Langfuse

Achievements

- Solved **250+ Quality DSA** problems on **Leetcode**
- Contest Rating **1636 @Leetcode** and actively working to grow steadily
- Competitive Programming @College **5th rank** in Codify, **12th rank** in **Code Crusade**
- Secured a spot in the **Top 15% globally** in **LeetCode Biweekly Contest 112**

Education

Acropolis Institute of Technology and Research
B.Tech : Computer Science And Engineering (CSE)

July 2020 - June 2024
CGPA : 8.61
